Choose One

#601 Routing and Scheduling. A four-hour workshop that examines theories and strategies for successful routing. Route types, stop choice, and multi-trip options will be discussed as well as the development of policy and procedures and their implications for economy and safety. Computer-aided and manual routing strategies will be evaluated and compared.

#606 Risk Management. A four-hour workshop designed to help transportation professionals identify and manage risk. The course covers risk management policy, risk management procedures and the elements of training to avoid risk. There is a special section on emergency planning and crisis management.
